QashqAI Voice – Manifesto

1. What We Are

QashqAI Voice is an independent cultural and technological initiative dedicated to ethical artificial intelligence, language preservation, digital accessibility, and linguistic justice.

2. Why We Exist

Many languages are disappearing without digital preservation, while marginalized and disabled communities remain excluded from technological access. QashqAI Voice exists to address these gaps ethically and responsibly.

3. What We Do

The project enables ethical language documentation, accessibility-first design, and culturally grounded AI use, operating independently of governmental, corporate, or military structures.

4. What We Are Not

QashqAI Voice is not a surveillance tool, not a military or security project, not a commercial data-extraction platform, and not affiliated with any political party or state authority.

5. Core Principles

Human dignity precedes technology. Languages are cultural heritage, not extractive resources. Accessibility is a right, not a feature.

6. Independence and Vision

The project is designed to endure through documentation, ethics, and public accountability rather than institutional dependency.

Ownership Statement

Declaration of Ownership

QashqAI Voice was founded and is owned by Siefollah Aslani. All intellectual, conceptual, and structural rights belong to the Founder unless explicitly stated otherwise.

Nature of Ownership

Ownership is individual with a public-interest orientation, non-commercial by design, and protected against institutional or political appropriation.

Use and Restrictions

Any use for surveillance, military, intelligence, commercial data extraction, or cultural repression is strictly prohibited.

Continuity

If the Founder is no longer actively involved, the project remains valid as a documented cultural and technological initiative.

Ethics & Red Lines

Ethical Foundation

QashqAI Voice is grounded in human dignity, cultural integrity, accessibility, and social justice.

Strict Prohibitions

No surveillance, military, intelligence, political coercion, commercial exploitation, or cultural erasure is permitted under any circumstances.

Consent and Oversight

All participation requires informed consent. Human oversight is mandatory for sensitive or culturally significant outputs.

Public Interest Declaration

Public Value

QashqAI Voice serves the public interest by preserving endangered languages, advancing accessibility, and contributing to ethical AI discourse.

Non-Commercial Orientation

The project is not designed for profit and does not monetize data or cultural contributions.

Independence

QashqAI Voice operates independently from governments, political parties, military institutions, and corporate control.

Declaration

This document affirms QashqAI Voice as a public-interest digital initiative for archival and international reference.
